Operating System Project 5

Banker's Algorithm demo description

1. **10 5 7 will be tested, and others may be tested**

2. **The case of "Code of request: 3" should be the last output**

3. **I may use Ctrl + C to terminate process, then at least one case for each request code and each release code should be seen if I can see them**

4. **Your code will be reviewed and questions related to requirement will be asked to you**
